GLOBAL GIVE BACK CIRCLE
This is what success looks like when once at-risk girls transition FULL CIRCLE and pay-it-forward through GIVING BACK.

Lavender Otom, Medical Doctor, County Government of Kisumu & Aga Khan Hospital
“KPMG was first introduced to the Global Give Back Circle in 2009 when I met two young ‘butterflies’. I was so impressed with their individual poise, and such a polished and professional presentation, that I decided the firm must become involved. Today, over a hundred people at KPMG in Kenya, the USA, Australia, South Africa and the United Kingdom, are involved in mentoring and providing friendship and Support. Over the years, KPMG in Kenya always has a number of young women from this program as interns and I can personally tell you that they are all exceptionally professional and high performing. Today, we feel fortunate to have four of those outstanding young women working in full-time positions at KPMG. KPMG is proud to be associated with the Global Give Back Circle and the fantastic impact it has on all involved”.

David Leahy – Partner, KPMG East Africa

Deloitte invests in the Global Give Back Circle by sponsoring, mentoring and providing these girls internships. By doing this Deloitte contributes to the development of the kind of benevolent human capital needed for growth in Kenya.”

Bernadette Wahogo Irungu – Partner, Deloitte East Africa

“Microsoft values its investment in the Global Give Back Circle because of the way it ensures all of the girls are getting the ICT Skills they need to enter the workforce and participate in Kenya’s economy with dignity and pride.”

Wanjira Kamwere – Youth and Government Programs Microsoft

“The Global Give Back Circle is unique in the way it carefully transitions at-risk girls into the job market through education that goes beyond what they learn in the classroom. Its emphasis on giving back and workforce readiness provides ZEP-RE with the kind of employees we value. We see our investment in this program as a business investment as much as a social investment.”

Hope Murera – CEO, ZEP-RE (PTA Reinsurance Company)

Valentine Mogusu, Senior Audit Associate, Deloitte East Africa
The Global Give Back Circle fights gender inequality through the mentorship, education, leadership development and economic empowerment of at-risk girls. The circle becomes a movement as young women transition from beneficiary to benefactor, giving back to their communities and mentoring the next generation of girls.

"As a process engineer, I get to work with different departments within the bank to streamline operations and reduce inefficiencies. That way, more people can enjoy and benefit from the financial services offered. I'm happy to be in a field where I can apply what I learnt and build a strong technical foundation."
